Councilperson Darin Clark  
Councilperson Jeff Michalak  
Mayor Pro Tem Ann Vernon  
Councilperson Kris Kuehnel

4. **Citizen Comments**

**Ken Paschall of 534 Whitecap** stated he sees a flaw in the process for placing items on City Council agendas and recommended a process that will keep controversial items off of agendas in the future. He stated that if a resolution is made that it only be read the first meeting and then decided upon at the next meeting.

**Tom Merchant of 315 Oak View Circle** stated that as the Emergency Management Coordinator he wanted to give an update on the Corona virus. He advised of the current status of the virus within the state of Texas and Harris County. He advised that citizens should wash hands thoroughly, stay at home when sick, avoid mass gatherings, and clean and disinfect surfaces. Harris County has put together a readiness team and there were not cases reported yet in Harris County. Citizens may visit [readyharris.com](http://readyharris.com) for more information.

**Jeff Tave of 302 Pine View Circle** stated he felt that anytime an item is on the agenda, even to just discuss, there should be a reference to what budget item will cover that item if additional costs to the City are proposed. He stated that he did not agree with speed humps/bumps and he is against these speed barriers because they create more maintenance costs, they impede emergency vehicles, they create wear and tear on vehicles, and they are a barrier to water flow.

**Joan Schneck of 522 Seaway Drive** reported that she has been receiving scam emails and didn't know what to do about them. Mayor Skelton advised she contact the Lakeview Police Department to report them.

**August Oliver of 220 Bayou View Drive** thanked the Mayor for having the item regarding speed bumps on the agenda. He stated that he understands water flow could be an issue if these are put into place.

5. **City Official, Board, Commission, Committee, & City Service Report**

Mayor Pro Tem Vernon asked about the status of the cases on the Ordinance Violation Report that have been on the report for over 3 months. Mr. O'Donel explained that cases are reset at the courts often. Mayor Skelton informed him that there are still complaints regarding speeding. Mr. O'Donel suggested that the citizens call the police department to report these complaints. Councilperson Michalak asked if there is a tracking report of the citizens' calls. Mr. O'Donel stated that he is not aware of any additional reports other than the Calls for Service report.

## 6. Consent Agenda

Mayor Pro Tem Vernon made a motion to approve and to adjust the budget to pay for the audit using the funds obtained from the 402 Cedar grant reimbursement and reserve funds. There was a second by Councilperson Findley. Councilperson Michalak stated he would like to see the budget adjustments at the next Council meeting. The vote was unanimous to approve.
- 7.4. *Consider/Approve a variance request for the use of the City of El Lago Event Room from Shelly Jones.* Shelly Jones informed Council that the Lakeshore Condominium Homeowners Association has been using the Event Room every year for this annual meeting. Mayor Pro Tem Vernon made a motion to approve the variance and Councilperson Clark provided a second. The motion passed unanimously.
- 7.5. *Consider/Approve Resolution 2020-04 amending the Building Permit Fee Schedule.* Mayor Pro Tem Vernon explained that the changes to the current building permit fee schedule included the addition of a General Contractor's permit fee of \$20 which is a way to track large renovations, and the second change lowers the \$50,000 valuation of the projects to \$20,000 for cosmetic changes. Councilperson Findley made a motion to approve and Mayor Pro Tem Vernon seconded. The vote was unanimous.

- 7.8. *Consider/Approve the addition of the licensing/registration module for the IworQ permitting software.* City Secretary Rachel Lewis presented a proposal from IworQ to add a licensing module which would allow contractors to apply using the web portal and would also allow city staff to track other licenses required by the City. She stated that there is enough money left from the sale of excess equipment to pay for the additional license which costs \$1500 per year. Mayor Pro Tem Vernon stated that this module is needed and would reduce the data entry required to complete contractor registrations. Councilperson Findley stated that the adjustment in the building permit fees schedule should also help cover the expense of the module on an ongoing basis. Councilperson Michalak made a motion to approve the purchase of the IworQ licensing module and that it be funded this year from the sale of excess equipment. Mayor Pro Tem Vernon seconded. The vote was unanimous to approve.
- 7.9. *Discuss/Approve repairing treadmills for a cost of \$3655.08 or a plan to replace existing equipment and/or repair and consider a budget adjustment accordingly.* Mayor Pro Tem Vernon explained that the equipment in the fitness center was budgeted for replacement in the past, but the equipment has not yet been replaced. A written report is attached. Councilperson Clark stated he would like to budget for it next year due to the gym revenue being down. Councilperson Michalak agreed that repairs to the equipment should be done but then stated there should be a plan to budget to replace the equipment over the next three years. He also suggested that the City look into leasing the equipment to see if that will save money. Mayor Pro Tem Vernon made a motion to approve. There was no second so the motion died. Councilperson Kuehnel made a motion to postpone and that the City look into leasing options. Councilperson Michalak seconded. Councilpersons Michalak, Findley, Clark, and Kuehnel voted in favor and Mayor Pro Tem Vernon was opposed. The motion to postpone passed.

7.10. *Discuss the addition of speed bumps/humps within the City.* Councilperson Clark stated he would like to have a workshop to look at the possibility of speed bumps/humps placed within the City to help combat speeding. Mayor Skelton stated that there must be a financial discussion to determine if there are funds available to do this. Mayor Skelton also stated that transportation studies usually must be done for this type of thing before any real discussion can take place. Councilperson Michalak asked about an estimated cost and Councilperson Clark said that no cost information has yet been gathered. Mayor Pro Tem Vernon stated that the police department does not have the man power to have officers sit at all locations where speeding occurs and is not against gathering data to see if any data supports the City utilizing speed bumps.
